Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 30 is rejected under 35 U.S.C. 102(b) as being anticipated by Skorka.

Skorka shows a pump body 2; opening 25, 58; moving assembly 9, 15; pump chamber air intake passage 13; first and second lips 32-35 on 7 and 8. Note, there is a single pump chamber in Skorka as it is all one structure.

Allowable Subject Matter

3. Claims 1-29, 31 and 32 are allowed.

Response to Arguments

4. Applicant's arguments filed 5/25/2007 have been fully considered but they are not persuasive.

Applicant contends that Skorka does not show a "single" pump chamber. First, as noted above, it is all one structure. Secondly, as applicant's chamber is divided when the piston comes down, it is similar to the one of Skorka. Finally, as there is an open transitional phrase, other structures are permitted as "single" is not exclusionary. ("only a single pump chamber" or similar phraseology would be exclusive)
